GLUE SPOTS

Simple attaching of products by the use of pressure sensitive spots of adhesive on a roll - in a self-dispensing box! Ideal for attaching such items as sample packets, plastic membership cards, coins, business cards, promotions or instant rebate coupons to nearly any surface. The answer for holding two items together while moving down a conveyor. Available as low tack (removable), high tack (removable from most surfaces) and super high tack (permanent on most surfaces).

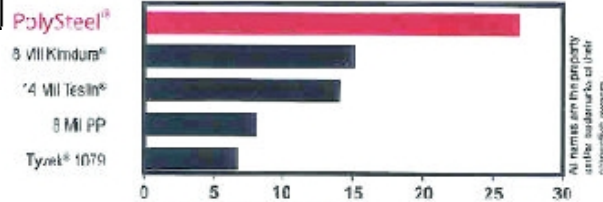

INTRODUCING POLYSTEEL[®] LABELS & TAGS

- ✓ Stronger
- ✓ Faster printing
